Jim/Cristy

Per our conversation earlier today( with Jim), enclosed is a pdf of the new tender from Utica Mutual. The originals will be overnighted directly to Cristy. Please work with Richard Hauserman to establish a claim file and then the appropriate financial files once the policy search is complete. The packet includes a series of facultative certificates together with one corresponding XLX policy. Since we now have 3 similar matters in the office Gary Ibello will coordinate things with respect to communication, positions, and retrocessional reporting. This could pose significant exposure so we will want to get it on a fast track in terms of positions, etc.

Soon, we should discuss further communication to the intermediary in an attempt to determine if any other such matters exist and are unreported.

Thanks. Paul
